## **Quality Service**

The Outreach Laboratory Program is dedicated to serving physicians and their patients, by providing a more intimate relationship between clinical diagnostic testing and the physicians' office. Located on the fourth floor of the Presbyterian Hospital building, we provide:

### **Customized Requisitions**

### **Electronic Reports**

### **Hard Copy Reports**

### **Courier Service**

### **Supplies**

### **24 Hour Client Service**

Our client services representatives ensure that all services are accurate, detailed, and delivered on a timely basis. Our Information Services Team supports the various laboratories and acts as the interface with clients and insurance companies. We can supply our clients with electronic access to test information through our WEBCIS internet server, allowing your office to obtain results in real time. Our Courier Service provides scheduled specimen pickups throughout the day in addition to the delivery of hard copy reports and supplies.

# Excellence

We use various medical experts and the most modern technology to support our program. Our Laboratory is a combination of two departments (Anatomic Pathology and Clinical Laboratory Services) with 15 divisions and many sub-specialty sections encompassing virtually every area in anatomic and clinical pathology. Our consolidated resources result in more service around the clock and comprehensive sub-specialty testing. There are over fifty attending physicians and doctoral level scientists available to you for:

**Clinical Consultations**

**Continuing Education**

**In-service Updates**

**Research and Development**

**News Letters**

We also have over 400 people on our staff dedicated to delivering timely and reliable services to all patients and healthcare providers. Our laboratory areas include:

**Blood Bank**

**Immunohematology**

**Coagulation**

**Microbiology**

**Clinical chemistry**

**Molecular Diagnostics**

**Cytology**

**Mycobacteriology**

**Cytogenetics**

**Mycology**

**Cytopathology**

**Parasitology**

**Endocrinology**

**Renal Pathology**

**Flow Cytometry**

**Serology**

**Hematology**

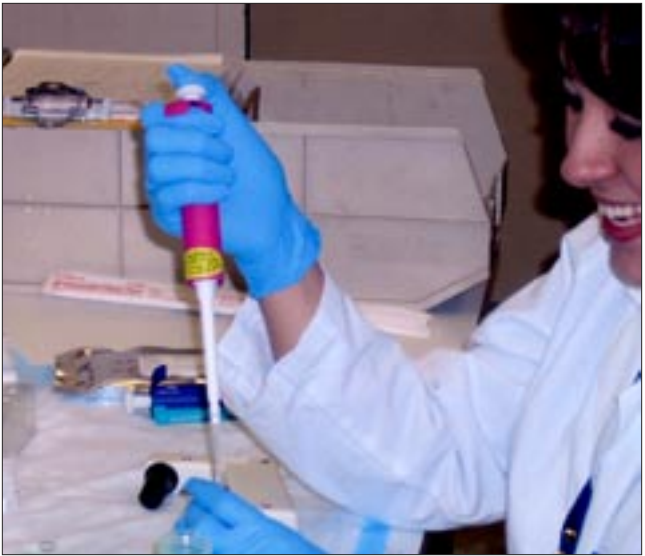

**Surgical Pathology**

**Histology**

**Toxicology**

**Immunochemistry**

**Virology**

## **Commitment to Patient Care**

Columbia University Medical Center is committed to quality medical care. We provide a comprehensive menu of laboratory services to ensure that our patients will have an outstanding experience with NYPH-CUMC.

### **Columbia University Medical Center Outreach Laboratory Service**

The NYPH – CUMC Clinical Laboratory is one of the Tri-State area's leading clinical reference laboratories. NYPH is dedicated to serving the ever changing needs of healthcare providers through a committed staff, and a client focused organization. Our laboratories provide comprehensive clinical laboratory testing to physicians in private practice, research, and industry. NYPH makes every effort to ensure consistent quality, rapid turnaround time, high standards for personnel, the latest in instrumentation and technology, continuing education programs, and computerized data management.
